Umjetnost i zanati u gradovima svjetske baštine

Zanatstvo je jedna od glavnih karakteristika gradova. Kao simbol njihovih korijena, historije i osobnosti, ono identificira i karakterizira posebnosti različitih kultura. Umjetnost i zanati predstavljaju jedinstveno kulturno nasljeđe. Njihov opstanak i prenošenje na buduće generacije doprinosi očuvanju vrijednosti autentičnosti i integriteta zbog čega su ovi gradovi klasifikovani kao svjetska baština.

UMJETNOST I ZANATI U GRADOVIMA SVJETSKE BAŠTINE je projekat Organizacije gradova svjetske baštine koji ima za cilj promociju lokalnih zanata i tradicionalnih zanata kreiranjem "Oznake kvaliteta" koja objedinjuje, pod zajednički nazivnik, sve ove umjetnosti i zanate gradova. Cilj je pomoći očuvanju znanja i know-how-a zanatlija, uzimajući u obzir i razne zanate i zanimanja koja se bave restauracijom spomenika i lokaliteta svjetske baštine.

Arts and Crafts in World Heritage Cities

Craftsmanship is one of the main characteristics of cities. A symbol of their roots, history and personality, it identifies and characterises the peculiarities of different cultures. Arts and crafts constitute a unique cultural legacy. Their survival and transmission to future generations contributes to safeguarding the values of authenticity and integrity for which these cities were classified as World Heritage.

ARTS AND CRAFTS IN WORLD HERITAGE CITIES is a project of the Organisation of World Heritage Cities that aims to promote local crafts and traditional crafts through the creation of a "Quality Label" that brings together, under a common denominator, all the arts and crafts of these cities. The aim is to help preserve the knowledge and know-how of craftsmen, while also taking into account the different crafts and professions which work in the restoration of monuments and World Heritage sites.

Regionalni sekretarijat za Južnu Evropu i Mediteran Organizacije gradova svjetske baštine

Organizacija gradova svjetske baštine (OWHC) je osnovana 8. septembra 1993. godine u Fesu (Maroko). Organizaciju čini oko 300 gradova u kojima se nalaze lokaliteti uvršteni na UNESCO listu svjetske baštine. OWHC ima za cilj implementaciju Konvencije Svjetske baštine iz 1972. godine, podizanje svijesti o važnosti svih vrijednosti nasljeđa i upozoravanju ljudi na potrebu da ih štiti i čuva, a sastoji se od nekoliko Regionalnih sekretarijata.

Regionalni sekretarijat za Južnu Evropu i Mediteran je konstituiran u Kordobi (Španija) 18. septembra 2001. godine i promovira implementaciju zajedničkih projekata i jačanje saradnje između onih gradova u OWHC-u koji dijele zajednički geografski, historijski i kulturni kontekst.

ABRAKABAKRA COPPER ART

AbrakaBakra Copper Art je projekt umjetnika Denisa Drljevića. Osim što Denis izrađuje umjetnička djela koristeći tradicionalne tehnike obrade bakra, on oko sebe okuplja mlađe ljudi koji žele revitalizirati tradicionalne zanate. Proizvodi koji ovdje nastaju uglavnom su napravljeni od recikliranog bakra u kombinaciji sa ručno iskucanim stariim kovanicama, komadima drveta, kamena ili kristala.

AbrakaBakra Copper Art is a project by artist Denis Drljević. In addition to creating works of art using traditional copper processing techniques, he gathers around him young people who want to revitalise the traditional crafts. The products that are created here are mostly made from recycled copper combined with hand-struck old coins, pieces of wood, stone or crystal.

OBRT BADŽAK

Ova kujundžijska radnja datira od 1918., a posebno u vezi nije je to što u jednom objektu možete naći četvrtu i petu generaciju kujundžija. Ugledavši se na svog đeda i oca, Adnan Badžak počinje stvarati razne rukotvorine od bakra: slike, džezeve, tanjure i nakit - sa povijesnim motivima Bosne i Hercegovine. Svoje znanje prenosi na svoga sina Hamzu, koji je ujedno i najmlađi kujundžija u Mostaru. Ova obitelj od 1918. sve bakrene ukrase izrađuje ručno, s idejom očuvanja tradicije i kulturnog identiteta.

This coppersmith's shop dates back to 1918. Special about it is that you can find fourth and fifth generation of coppersmiths in one building. Following in his grandfather and father's footsteps, Adnan Badžak began to create various handicrafts from copper: framed copper, coffee pots (jezvas), plates and jewellery - with historical motifs of Bosnia and Herzegovina. He passed his knowledge on to his son Hamza, who is also the youngest coppersmith in Mostar. This family has been making all of their copper ornaments by hand since 1918 with the idea of preserving tradition and cultural identity.
