

THE CONSERVATION PROJECT OF "HAMMAM" OF XVII CENTURY,
WHICH WAS FOUND DURING ARCHEOLOGICAL EXCAVATIONS IN 2016.

The one of the most significant projects that initiated in 2018 is the conservation project of Underground Hammam of XVII century. During the reconstruction and archaeological excavations near the Double Gates, the ruins of a bathhouse belonging to the Middle Ages were discovered. As a result of archaeological excavations in 2016 the main part of the bath complex was cleaned from the ground and the architectural structure was determined. The project is implemented in a planned manner. In the future, the archeological museum under open sky is planned to operate.

BAKU KHANS PALACE MUSEUM PROJECT INITIATED ON MARCH 2018.

Baku Khans Residence, the architectural monument of the XVIII century, is located on the left side from Double Fortress Walls in Icherisheher. The Complex includes two houses (Khan's Palace), Underground Bath-House and the Park. Baku Historical Museum will be a wonderful historical experience that takes the visitor on a journey through the centuries in Baku. The Baku Khans Palace Museum Project is still going on and is scheduled to be completed by November 2019. The Park that is planned to be built around the palace of Baku khans, will be the largest garden park in the Icherisheher. Thus, one can visit the museum as well as relax in the park, and listen to the spirit of Icherisheher.
