

## Sultanbeyli Municipality – Istanbul (Turkey)

### Feeding of street animals

The epidemic has had an impact on the lives of street animals. All restaurants, cafes and other social gathering places have been closed to halt the spread of the coronavirus. As a result, a lot of street animals have had difficulty finding food and water.

The municipality is making concerted efforts to provide food and water for the country's street animals to keep them from going hungry given the large absence of activity on the streets.

**Type of initiative:** Other initiative designed specifically as a reaction to the COVID-19 outbreak
