

Kazan (Russia)

Measures Taken by Kazan City Municipality in Response to COVID-19 (2 on 3)

Mobility

Kazan subway works on a new schedule - from 6.00 to 21.00 from April 1. In the region, local trains, including those that go through Kazan, are suspended from April 1. The entire transport fleet of the city of Kazan is continuously disinfected. There are 14 traffic police check station at the city entrances. Police and law enforcement officials check that drivers comply with the rules of self-isolation, established on the territory of the region since March 30 to prevent the spread of a new coronavirus infection.

Sanitary

Kazan hospitals with the patients who are suspected of having COVID-19 coronavirus infection are disinfected on a timely manner. Moreover, the employees of the Kazan disinfection station decontaminate the border and customs control zones, observatories and transport used for health needs with special tools. Citizens can send their request for disinfection of stairwells of residential buildings via special website.

Medical workers and volunteers in Kazan were provided with 5 870 unlimited travel tickets for all types of transport. This measure of support is very important during the period when employees of medical institutions are working in intensive mode.

Kazan City Council asked "Yandex.Taxi" company to provide 30 cars for emergency medical care. This will reduce the burden on medical staff teams in the number of medical institutions of the city. In addition, according to the decision of the Mayor of Kazan, 15 official cars of the Kazan Municipality were temporarily used to serve local hospitals.

Type of initiative:

Prevention and security

Flattening of the epidemic curve and ensuring continuity of services
