

Rhodes (Greece)

The initiatives taken by Rhodes and the Medieval City of Rhodes during the COVID-19 crisis

2. Flattening of the epidemic curve and (B) ensuring continuity of services

(A) Rhodes, has only four (4) cases positive to coronavirus disease confirmed so far. This has been achieved by residents following the instructions of the municipality and, by extension of the government. The epidemic curve has almost been flattened already for the whole country (Greece) because lockdowns and measures were imposed and taken early enough.

(B) Despite the crisis the following services are still available for the sake of locals (some of the services are being handled online or over the phone).

- Medical care
- Pharmacies
- Super Markets
- Banks (mostly online)
- Public Transport
- Basic Public Services
- Security Services

Type of initiative: Flattening of the epidemic curve and ensuring continuity of services
