

## Warsaw (Poland)

### Warsaw supports business

Reductions in rents in municipal premises, reliefs in the repayment of arrears, help for tenants of gastronomic gardens or free accounting, business and legal advice. The capital offers a number of solutions to local companies that have found themselves in a difficult situation due to the epidemic.

We are constantly monitoring the situation related to the effects of the epidemic for business and we stay in touch with the capital city's business community, offering them help and support. Many capital companies have already benefited from the support program for Warsaw entrepreneurs.

In addition, entrepreneurs may apply for a deferment of repayment or dividing it into installments. Entrepreneurs who have problems with maintaining financial liquidity due to the effects of restrictions introduced by the government due to the epidemic, may apply for a relief in the repayment of tax liabilities due to real estate tax and tax on means of transport.

### Type of initiative
